# ICON1

Revolutionary Control in a Remote Display

Pivot management through a remote panel interface

With Valley® ICON1, full control of your smart panel is accessed via a built-in Wi-Fi* signal. No longer do you have to drive to the pivot point or open the control panel to have complete operation and access. Save time, wear and tear on your truck, and fuel by accessing your smart panels through your mobile devices.

Key Features:

- Remote access interface via Wi-Fi access*
  - No cell service or internet required
- Wireless display through tablet or smartphone
- ICON app available on the App Store and Google Play
- Cable theft monitoring**

Smart Panels Made Easy®

* Limitations based on distance and field conditions.
** Additional hardware or subscription required.

valleyirrigation.com

Get set with remote capability.

Quickly switch between pivots to send commands and adjust controls by downloading the ICON app from the app store on your mobile device. Command has never been so easy. In addition, if you want full remote control from anywhere in the world, the Valley ICON1 comes standard with ICON Link built in, so that you can access your pivot no matter where you are.

Every ICON1 control panel is equipped with:

- Customizable mobile user interface
- GPS position readiness
- Auto reverse/Auto stop
- AgSense® built in and ready to use - ICON Link installed standard*
- BaseStation3™ compatibility*
- Variable rate irrigation (VRI) capability

A consistent interface and access to real-time data is available across all of your devices from anywhere in the world.

MONITOR
Access real-time status of your pivot and other inputs.

CONTROL
Control your irrigation machine from your mobile device or desktop.

REPORT
Learn from your past with historical data in easy-to-read, customizable formats.
